Oct 2016	2GIS. Middle → Senior → Lead Scala developer.
present	Back-end development in Scala. Web services, streaming, a little bit of spark. Worked in 2 commands under a few projects.
	Techs: Akka, cats, fs2, doobie, Kafka, RabbitMQ, PostgreSQL, RocksDB, Spark, Hadoop,
	ElasticSearch. Responsibilities: programming, architecture, partially command management (resource planning,
	product planning, project management), mentoring (including internal scala courses).
Jun 2015	Datamonsters (formerly Flexis, iDecide). Scala developer.
Oct 2016	Participated in a few projects. Mostly worked on a mobile messenger. It was a full-stack scala development: scala on the backend, scala.js (through cordova) on the frontend. Techs: Scala, Scala, Scala, Scordova, Akka, Play, RethinkDB
Oct 2014	Xored Software Inc. Software Engineer.
Jun 2015	Worked on the Cisco XMP Topology (part of the Cisco Prime Infrastructure platform). It's a network topology visualization project. Backend: Java, Spring, Hibernate. Frontend: JS, Dojo, TomSawyer, mxGraph.
Apr 2013	PinPay express. Developer → Team Lead.
Sep 2014	Worked on 2 projects (~50/50):
	1. JavaScript-based (webkit) GUI of the ATM (which was mostly a C++ Qt project).
	2. Java EE processing backend. Techs: Java, Spring, Hibernate, OracleDB.
	At some point, I became a team leader: project management, architecture, mentoring. Introduced a continuous integration pipeline (using Jenkins), moved from the SVN to git, massively improved
	documentation processes.
